BLUFFS OR STUPIDITY—WHICH?

Ever since the Zanesville convention the Hanna newspapers of Ohio have tried to disparage the Hon. John R. McLean's candidacy for governor. At no time have they accepted the situation as serious, but instead have attempted to convince their readers that by reason of Mr. McLean's nomination the Republican party will have a walk over at the polls in November. The Cleveland World, itself an uncompromising Hanna organ, rebukes its contemporaries for their short sightedness. Says the World:

"We invariably measure eminent men by the public positions they hold or have held.

"That is, instead of the stature, we size up the pedestal.

"If we were to judge John R. McLean by this common measure, he would appear but a sorry figure, for though in politics nearly all his life, he has never held political office—never been set up above the level of the eye.

"But McLean's influence in the politics of the state has been, through long years, too potent and too undoubted to permit of his being judged by so poor a standard.

"No man has so steadily impressed for the last 20 years his force upon the Democracy of Ohio as has John R. McLean. Other leaders have sprung into prominence, exerted a fleeting influence, weakened and dropped back into obscurity; many have flourished and have faded; but McLean has ever been the same—the one Ohio Democrat who held the power to eventually make or mar any leader in the party. He has been the first man that every candidate in recent years has consulted. He has been the man with whose opposition Democratic defeat was ever certain and without whose support success was impossible. While holding himself in the background, he has been the foremost, and, while never appearing at the head, he has always been the real leader.

"Let no Republican who is the sweet question to his soul that John R. McLean is inexperienced in practical politics because he has never been a candidate before. No other man in this state—and few in any state—knows so well the tricks of effective campaigning."

Coming as it does from a Hanna organ, this is no scant tribute to the seriousness of Mr. McLean's candidacy from a Republican point of view. The additional fact that Judge Nash and Chairman Dick are now touring the state imploring their followers, as they did at Akron, not to be too confident in the approaching campaign, indicates very clearly one of two things—either that the Hanna newspaper bureau, in belittling the candidacy of Mr. McLean and making extravagant claims of Republican success is guilty of gross political stupidity, or it is simply bluffing.

THE Philadelphia Record has figured out that there have been seventeen Governors elected in Ohio since the end of the civil war in 1865. Of this number four were Democrats. The time is ripe for the election of a Democrat this year in the evolutionary ups and downs of Buckeye politics, the last Democrat—Governor Campbell—having been elected ten years ago.

It was an easy matter to bring Judge Tibbals and Col. Sanford into line for the Hanna candidate by offering them front seats in the band wagon on campaign opening day, but how about the fellows whose only recognition is an invitation to shake hands with Judge Nash? The Machine must regard them as very, very cheap.

EVERY booth rented from the Fair management by Akron's merchants helps to meet the expenses of the great entertainment. Merchants whose places of business are not in the downtown district should all be represented in the booths.

THE surviving soldiers of the Civil War, members of the G. A. R., are still numerous enough to make a magnificent showing in their national encampment at Philadelphia. Long life and happiness to the veterans.

More than a hundred thousand people will visit Akron throughout the week of the Fair. Akron's citizens will join in giving them a cordial welcome and in making their visit a pleasant one.

Now let the Weather Clerk do his share and the Street Fair will be a splendid success.

EVERY public building in Akron will be arrayed in gorgeous colors during the week of the Free Carnival and Street Fair. Owners of private buildings should follow the example.

EVERY home in Akron should be decorated throughout Street Fair week with the national colors. This will leave a pleasing impression upon Akron's many visitors.

THE FATE OF THE MELON.

Why a Hungry Family Waited For It In Vain.

There was a family man, though evidently not of long standing, for he had not yet acquired the faculty of doing the marketing without looking sheepish.

He was buying provisions at a large and central grocery the other day, when for some reason or other he added to the heap of parcels before him a fine big watermelon.

"Going to carry them, did you say?" remonstrated a clerk. "Melons are mighty slippery. Better let me send it."

But the family man shook his head contemptuously.

"I've stuck to them when I was going at a dead run and climbing over fences when I was younger, and I guess I'll be able to stick to one now."

He was dimly aware of a row of grinning faces and a rush of new boys to the scene, but still stood, staring tragically down at the heap of scarlet, while the car went on. Then, nearly upset by the scrambling urchins, he turned and strode away as dignified as ever, but it's safe to predict that one day at least went without melon that night—Cleveland Plain Dealer.

There are many reasons why you should take Morrow's Kidney-oids in preference to any other kidney preparation. First, Kidney-oids are a scientific preparation. Second, they are tablets, which is the scientific form of preparing medicine. Third, there are never any bad after effects from their use. Fourth, they act directly on the kidneys; they are strictly a kidney cure and a nerve tonic. Fifth, you do not have to quit work while using Kidney-oids. A fifty-cent box contains enough for about two weeks' treatment. People use Kidney-oids because they cure kidney ailments.

Mrs. J. R. Thomas, 214 S. Spencer st., Akron, O., says: "I have been a long time suffering with pain across the small of my back for a number of years. Sometimes the pain would extend down into my hip joints which I supposed to be lumbago. I also had other symptoms of disordered kidneys; I heard about Morrow's Kidney-oids and decided to try them. I was surprised to find myself greatly relieved of my troubles and their continued use has completely cured me."

Morrow's Kidney-oids are not pills, but Yellow Tablets, and sell at fifty cents a box at all drug stores and at John Lamparter & Co.'s drug store.

Mailed on receipt of price. Manufactured by John Morrow & Co., chemists, Springfield, O.

Her First Thought.

Mildred—Have you ever thought that your last moment had come? What an awful feeling it is that comes over you at such a time!

Gertrude—Yes, I had that experience once when I was out riding with a fellow and he began starting to run away. It seemed as if we would certainly be dashed to pieces.

Mildred—And what was the first thing you thought of when death seemed to stare you in the face?

Gertrude—A hole in the toe of my left stocking. I have never since then run the risk of being found dead in such a condition.—Chicago Times-Herald.

Typewriter Tactics.

"Mrs. Spellman wears all her best summer clothes down to the office."

"Is she in love with anybody there?"

"No, but she says it scares her employer so he doesn't give her much work to do."—Chicago Record.

A Grasshopper Story.

A live grasshopper will eat a dead grasshopper. A Missouri farmer mixed paris green and bran together and let a grasshopper eat it. He died. Twenty at a time up. They died. Four hundred at those 20, and they died. Eight thousand at those 400, and they died. A hundred and sixty thousand at those 8,000 and died, and the farmer was troubled no more.

In its flight from the far west the name of the statistician of this story has become separated from his figure, but the fact that the incident occurred in Missouri is regarded as evidence of its possibility.—New York Tribune.

In the Swim.

Stubb at the beach. There goes that Miss Highland. Don't you think she's indifferent today?

A Robbed and Then Made to Sing.

Senior Manager Garcia, the oldest professor of music in the world, was born 94 years ago in Spain. He left his native country during the peninsular war, owing to Wellington's advance on Badajoz. When Gounod, Verdi and Wagner were still at school, Garcia was singing on the operatic stage. Many years ago he was on a tour with his father in Mexico, and they were "helped" by Mexican brigands, who first robbed them of over 1,000 ounces of gold and then compelled the Garcias to sing to them for nothing. Senior Garcia, by the way, was the inventor of the laryngoscope.

A WONDERFUL CURE OF DIARRHOEA.

A Prominent Virginia Editor Had Almost Given Up, But Was Brought Back to Perfect Health by Chamberlain's Colic, Cholera and Diarrhoea Remedy—Read His Editorial.

From the Times, Hillsville, Va.

I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and also some testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it.

After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow-sufferers that I am a hale and hearty man today and feel as well as I ever did in my life.—O. R. Moore. Sold by all druggists. E. Steinbacher & Co., wholesale agents.
